Hypercom Optimum T4210 Terminal

The Optimum T4210 terminal is one of the most capable dialup terminals in the industry today and United Bank Card is now offering it to you free of charge! Hypercom has combined the best-of-breed features of the Optimum family into this powerful IP device to suit any customer's needs - large or small.

SECURE DIALUP FUNCTIONALITY

The Optimum T4210 provides dialup performance and security second to none. The Optimum T4210 comes standard with integrated PCI PED approved PIN entry capability along with the safety of the HyperSafe®32 architecture.

SIMPLE AND EASY TO USE

An intuitive and easy to use design make the T4210 one of the most functional terminals on the market. Large, ADA-style, 19-key layout allows for easy key recognition and the Clear, Enter, Cancel and "5" keys provide tactile feedback for visually-impaired customers. The slim form factor makes it perfect for handover transactions. Also, the SureLoad® thermal printer design with clear lid alerts cashiers to low paper conditions and the simple drop-in loading virtually eliminates paper jams. The graphics-capable printer even allows you to print logos and coupons directly at the point of service! For installation and maintenance, color-coded port labels simplify service and support and industry-leading software includes the functionality necessary to introduce value-added applications.

ADD A FREE T4210 TERMINAL TO YOUR LOCATION TODAY!

The Optimum T4210 offers simple, easy to use features while providing extraordinary performance. Contact United Bank Card today to add this impressive terminal to your location absolutely free of charge!
